

AAOM Welcomes New Clinical Editorial Board

In June of 2006, the AAOM implemented a three-tiered editorial process to oversee the publishing of the American Acupuncturist, the Qi-Unity Report, the AAOM Website and acupediaonline.org, as well as special projects requiring editorial oversight and review. The Peer Review Board provides strategic direction, policy development/oversight, and editorial oversight. The AAOM Clinical Editorial Board supports the activities of the AAOM Peer Review Board. In-house AAOM staff serve as liaisons between the functions of the Peer Review Board and Clinical Editors.

Joseph Adams, LAc,
MTOM (CA)

Janet L. Borges, LAc
(VA)
